INTERNATIONAL NETWORK - AUDITING CULTURE

International network will have an afternoon where auditing culture will be the topic. Organizational culture is increasingly being in the spotlight by regulators, legal authorities, media, and other stakeholders as root causes of management failures, flawed decision-

making, fraud, and misconduct.

How can boards, senior leaders, and audit committees gain assurance that their organizations are truly upholding their stated cultural values and ethical commitments? Moreover, how effectively are they identifying and managing cultural risks to safeguard against reputational damage, legal exposure, financial loss, and other critical consequences?

Please join us for the event where the topic of auditing culture will be presented, as well as practical real cases will be discussed.

CRITICAL THINKING

Nowadays, critical thinking is one of the most important skills to have. Internal auditors, risk and compliance professionals at all levels will benefit from the practical applications shared in this course. IIA Sweden introduces this new half-day course with Sara I. James. The course helps participants appreciate the role of critical thinking in internal audit and other assurance areas. Critical thinking helps

internal auditors assess evidence, question assumptions, and test theories, producing more solid, useful information as a result. This course, which is highly interactive, uses case studies and practical exercises to boost participants' knowledge and confidence in using these skills in all their work.
